

Request specific methods from the suomi.fi authentication service

Question

How can I request specific methods from the Suomi.fi Authentication Service (or any IDP provider)? (also known as eSuomi.fi or APRO)

Answer

In the example below, we are requesting any support bank authentication (TUPAS), Mobiilivarmenne Mobile PKI and HST PKI X509 certificate authentication (Citizen eID).

Server saml.apro.kansalaiset.1
