IAM Academy 4 - Advanced IAM Consultant

IAM Academy 4 is a three-day practical course divided in several labs, which leads you to the certification Customer Identity and Access Management Bachelor Consultant. At the end of the course you will have achieved:

- The ability to install and configure a flexible Customer IAM solution.
- The ability to assist and support the customer in Customer IAM business analysis, product selection, installation, integration and configuration.

Get access to the step-by-step instructions divided by labs:

IAM Academy 4 - Day 1
IAM Academy 4 - Day 2
IAM Academy 4 - Day 3
