

Scope name internationalization

The scope names displayed in the Consent With Scopes screen (see [Login screens](#)) can be localized by using a language file property key composed as `SCOPE_A_TITLE`, where A is the scope name a with all letters in uppercase.

If no key for a scope name is provided in the language files, then the plain scope name is displayed by default.

Localizing scope names in English

```
#  
# custom/messages/uas_en.properties  
#  
SCOPE_EMAIL_TITLE = Email address  
SCOPE_PHONE_TITLE = Phone number  
SCOPE_NAME_TITLE = Name
```

Localizing scope names in Finnish

```
#  
# custom/messages/uas_fi.properties  
#  
SCOPE_EMAIL_TITLE = Sähköpostiosoite  
SCOPE_PHONE_TITLE = Puhelinnumero  
SCOPE_NAME_TITLE = Nimi
```
