

# Add Organizations/Users to Ubisecure extranet

Ubisecure customers' and partners' main users have the ability to manage their employees' access control directly to the Ubisecure services.

The main user can add new roles to a new users, add new roles to the existing user and delete users.

You can follow the instructions below.

## Step-by-step guide

### Login to the Administrative Interface:

1. Navigate to [Developer and Partner Portal main page](#)
2. Select "Administrative Interface" under Customer Self-Service Management

### Add a new role to a new user to grant them access to downloads ([downloads.ubisecure.com](https://downloads.ubisecure.com)):

1. Select Roles tab (roles tab is visible only for the main users)
2. Select Role (User/Main User)

The screenshot shows the 'Roles' tab selected in a navigation menu with options: Home, Users, Roles, Contracts, Approvals. Below the menu, a message states: 'This page shows information about roles in this organization.' Under the heading 'Roles', there is a search input field and a 'Search' button. Below that is a checkbox for 'Check/uncheck all' and an 'Actions:' dropdown menu set to 'Select action'. A table titled 'Organization roles' contains two rows: 'Main User' with a description 'Main User has administrator privileges to the organization' and a 'Users' button; and 'User' with a description 'User has member privileges to the organization' and a 'Users' button. At the bottom left is a 'Create new role' button and at the bottom right is an 'Exit' link. A footer note says 'Powered by Ubisecure'.

3. From the Actions menu choose "Invite user to roles"
4. Give the email address of the user and Choose next button

The screenshot shows the 'Role Invitation' process in the Ubisecure Administration interface. It features a progress bar with three steps: 'Step 1: Contact information', 'Step 2: User details', and 'Step 3: Confirmation'. Below the progress bar, a message says 'Please input user's email address.' There is an 'Email address:' label followed by an input field containing an email icon. At the bottom left is a 'Cancel' button and at the bottom right is a 'Next >' button. A footer note says 'Powered by Ubisecure'.

5. Give the first name and Last Name of the user and Choose Next button
6. Give the message and Choose Next button
7. Choose the Confirm button

### Add access to Control Desk ([control.eu.onubisecure.com](https://control.eu.onubisecure.com)):

If you are a IDaaS customer you have also option to invite users to role "Integrator"

When user has integrator role they are able to access control desk and use jobs associated with your IDaaS instances.

If you don't have Integrator role available, please contact Ubisecure support.

### Add access to Service Desk:

You can invite the new team member to role (User/Main User) and let Ubisecure support know the email address. Ubisecure support will add user account to service desk and grant user access to view, update and create tickets behalf of your organization.

## Delete user from the organization

1. Select Users tab
2. Select the user
3. From the Actions menu choose "Delete user accounts"
